### LANGUAGES

Spanish (native)

English (professional)

German (business fluent)

French (beginner)

### PROFILE

- PMP-certified program manager with 10 years in cloud delivery and service operations in regulated contexts.
- Drives CR intake, shared backlog, SLA-led releases, and incident RCA across distributed Agile teams.
- Proven cost optimisation and executive reporting; led programs with 7–8 figure scope and multi-brand impact.

### PROFESSIONAL EXPERIENCE

#### SENIOR PROGRAM MANAGER

Mar 2024 – Sep 2025

CARIAD SE — Wolfsburg, DE

- Directed a complex transformation program in Volkswagen Automotive Cloud for all VW Group brands and markets; reported to C-level.
- Managed prioritisation, implementation, and funding across 12 teams and 6 org units; oversaw an 8-figure budget with supplier-to-board visibility.
- Drove AWS Migration Acceleration Program and introduced Copilot automation to cut manual reporting and raise transparency.

#### PROGRAM MANAGER

Nov 2020 – Mar 2024

CARIAD SE — Wolfsburg, DE

- Owned end-to-end delivery of the License & Service Activation platform, scaling to millions of vehicles worldwide.
- Integrated regional compliance into predictable releases and ACs; reduced operating costs by ~70% via data-driven change and architecture redesign.
- Managed multi-team backlogs and incident triage; built BI dashboards for engagement, adoption, performance, and compliance.

#### TECHNICAL PROJECT LEAD

Mar 2019 – Nov 2020

SEAT S.A. — Barcelona, ES

- Oversaw OCU integration enabling eCall and remote unlock; coordinated suppliers and internal cross-functions.
- Managed crash/vibration/EMC validation for homologation and delivery of SW releases, technical blueprints, and mechanical designs.

#### PROJECT CONSULTANT

Dec 2017 – Mar 2019

AKKA Technologies — Barcelona, ES

- Provided technical project support for connected component integration, ensuring validation compliance and cross-functional deliverables.

#### TECHNOLOGY CONSULTANT

Oct 2015 – Dec 2017

AKKA Technologies — Barcelona, ES

- Supported IoT solutions: firmware (Python/C/C++), web (HTML/CSS/AngularJS/jQuery), QA and CI (Jenkins/Git).
